ONE SENATOR BLOCKS VOTE ON INCOME TAX

Efforts to Bring Income and Corporation Tax Amendment Up Next Tuesday Failed.

WASHINGTON, July 2.—The Senate "came within one" yesterday of agreeing to vote next Tuesday on the entire income tax amendment to the tariff bill, including the corporation tax substitute. The compact was prevented by the objection of Senator Bulkley and his opposition roused no little feeling. The proposition took the form of a request from Senator Flint in the absence of Senator Aldrich, in charge of the tariff bill, for unanimous consent to vote on the Bailey-Cummins income tax amendment and all of the amendments to the amendment at 12 o'clock next Tuesday, with the understanding that the Senate should remain in session until all these questions should be disposed of. The suggestion created a general flurry in the Senate. There was the usual animated gathering in the center aisle. A number of Senators asked to be heard, and the proceeding for a brief time took on the appearance of a general conversation at a sewing bee.

One Senator after another expressed consent to the proposition until for a few moments it looked as if all objections would be brushed away and all factions satisfied. Just as the Vice-President was stating the agreement for about the third time, Mr. Bulkley loomed up and proceeded to say that he could not agree that the vote should be taken at the time specified. He did not then give his reason, and he was immediately beset by a dozen or more Senators in the hope of prevailing upon him to desist from his opposition. It turned out that while he was opposed to the corporation tax amendment this was not his real reason, but that he expected to be absent from the city next Tuesday and did not want the vote recorded while he was away. It seems that some of

Mr. Bulley's constituents are very strongly opposed to the corporation provision and sharing in their feeling he desires to make as strong a fight as possible against the bill. He therefore desires to be on hand up to the last moment, and in view of the fact he expects to be in Connecticut with the President next Tuesday, he found it quite impossible to give his attention to the amendment on that day. He did not, therefore, change his mind but when the Senate adjourned many of the Connecticut Senator's colleagues were hopeful that he might be found more yielding today.

It was evident when Senator Flint made his proposition that the discussion of the income tax question had been almost if not quite exhaustive. There were yesterday several speeches for and against the measure, Mr. Borah leading off in favor of the income tax, but opposed to the corporation tax and Mr. Root following on the other side and advocating the corporation tax, but opposing the income tax. Other speakers of the day were Senator Clapp and Senator Owen favoring an income tax, with incidental remarks by Senator Flint and others.

It was evident throughout the entire day that the corporation tax question had failed to arouse as much interest in the Senate as had been expected it would and some suggestions were heard in support of a proposition looking to the postponement of the entire income tax question, including corporation tax and inheritance tax, until next session. The fact, however, that the President is so strongly urging the tax on corporations stood in the way of the acceptance of any suggestion of this kind and it was not seriously urged.

The Senate at 4:30 o'clock p. m. adjourned.

BRICK NOW ON GROUND.

Two Carloads Delivered to the Site This Week.

During the present week the Eddins Manufacturing Company have delivered two cars of brick on the site for the new Tucker building on West Union street.

It was the intention of these people to commence the work on last Mon-

day, but the uncertain weather and the delay in securing the brick has caused them to be put out for another week. With favorable conditions they will commence the laying of brick then.

Some article that is simply "in the way" at your house might, if advertised, be sold to someone who is anxiously looking for it.

Reorganization Plans of the Old Seaboard

NEW YORK, July 2.—Details of the reorganization plan of the Seaboard Air Line railway placed in receivers' hands some time ago were formally announced here last night.

The only securities that are to be surrendered for new ones are the general mortgage 5 per cent bonds of 1907, for which adjustment bonds are to be exchanged. The first mortgage fours are to be deposited so that they may be stamped at par later.

The road is to continue liable for its just obligations including guarantees of the bonds of subsidiary lines and it is intended to vest in the Seaboard Air Line railway by sale, merger or otherwise, the properties of the Birmingham Air Line railway.

The other issue of new securities authorized is to consist of adjustment mortgage 5 per cent bonds limited to a total of \$25,000,000, these to be cumulative interest bonds probably dated November 1, 1909, payable in forty years.

HEAVY RAINS REPORTED GENERAL OVER STATE

SIX INCHES RAINFALL IN LESS THAN TWELVE HOURS.

Washouts Reported, But Nothing Has Happened That Would Interfere With Travel.

The heavy rain which commenced in this city at about 11 o'clock on Thursday night and continued unceasingly until the noon hour of Friday was the hardest recorded in this section for a number of years.

During the above time there was a little over six inches of rain fall, and advice from all sections of the country were to the effect that it was general, having fallen at about the same ratio.

There are a number of washouts reported by the railway authorities in various places of the State, but nothing serious has happened as known of. All trains have been running on time, which shows that the railway people are anticipating and keeping a sharp lookout for all irregularities.

While the rain completely demoralized the business interests all over the sections affected, it has been of great benefit to the country, for it will fill up a great many streams and will again assist in filling the ponds that sufficient water may be had for the cattle, this having become a problem in this county for the past few months.

Even should this weather continue it will require many days to fill up all of the places, for while the rainfall has been great it is scarcely noticeable in the fields, the ground being so dry that it readily took up all that has fallen.

The Record.

Following is the precipitation for this year, as taken by Weather Observer Hovey P. Bell, of this city:

Rainfall for—	
January	3.15 inches.
February	1.71 inches.
March	1.88 inches.
April	1.02 inches.
May	1.82 inches.
June	4.42 inches.
July—up to 7 a. m. July 2.	1.77 inches.
July—from 7 a. m. to 7 p. m., July 2.	5.17 inches.

Making a total precipitation of 6.94 for the first two days of July. A few more such rains and the ground will be as thoroughly soaked as any old toper in this section.

The Storm Elsewhere.

The rain storm seems to have had some wind connected with it both at Cedar Key and Fort Myers, judging from the numerous reports received in Gainesville.

At Cedar Key the rain was accompanied by a great deal of wind, which shook up the houses generally, in many instances blowing out the glass windows. The glasses in the windows of the passenger coaches of the Seaboard train were all blown out during Thursday night.

At Fort Myers, and all over the southern part of the State, the rain was heavy last week and the first of this week. Many rumors are current in reference to Fort Myers, some stating the town had been washed away, but a call at the Coast Line offices in this city showed that they were operating trains to that point. The first one for the past two days, however, was run on Friday morning.

All of the waterways have been stopped up during the dry weather, and in some places the water is reported over the rails of the roadway, but nothing is feared from this source, for it will quickly be absorbed.

BODY FOUND IN RIVER MAY BE LEON SING'S

Murderer of Elsie Sigel May Have Committed Suicide Is Theory of Police.

NEW YORK, July 2.—Although complete identification was impossible last night, there appeared to be a strong probability that the body of a Chinaman, which was found floating in the Hudson river, in the upper part of this city last evening, was that of Leon Ling or William L. Leon, the murderer of Elsie Sigel. The man's height, weight and general appearance tallies with that of Leon Ling, but as the body was nude, except for a silk undershirt, and had been in the water for more than a week, a thorough examination will be necessary. Coroner McDonald, who was the first to inspect the body, believes that it is Leon's, as do a number of policemen, but until measurements and facial characteristics are carefully gone over the identification will remain in doubt.

If it is Leon, the cause of his death will be another mystery, although one theory, that of suicide, would appear reasonable. In salient features the body bore a marked resemblance to Leon Ling. The teeth were good, as were Leon's,

the height about 5 feet 4 inches, which was Leon's height, and the weight 125 pounds, which was about Leon's. The age appeared to be about 25 or 30 years. Leon's age was given out by the police as 30. An autopsy will be performed today. The coroner's jury was unable to arrive at any conclusion as to how the Chinaman met his death last night.

Early yesterday morning Ung Yow, an inconspicuous, hard-working Chinese laundryman of the East Side, was found by his neighbors strung between two wash tubs with his head beneath the water of one, and his feet in the other. There were bloody finger marks on his neck, bloody foot prints on the floor and a knotted cord about the man's neck. In the cash drawer the police found 1 cent.

All attempts to connect the murder of Ung Yow with the murder of Elsie Sigel by Leon Ling, have failed. Investigation soon showed that Ung Yow was beaten over the head with flat irons, probably by more than one man, and then flung in the tubs. He probably died by drowning while unconscious.

Orv. Wright Successful In Aeroplane Flights

WASHINGTON, July 2.—Calm, confident and nerveless, Orville Wright late yesterday encircled Fort Myer drill grounds time after time in his aeroplane in three successful flights while a crowd of thousands cheered him for his success that attended his persistency and pluck. While the machine oscillated at certain points in its flights and dipped and rose suddenly at other points, it was evident from the regularity with which these things happened that they were due to the condition of the atmosphere and not to any fault of the machine. For the first flight the machine got away with a fine start. Down the field the aeroplane sailed, curved gracefully and came back up the east side of the field along the edge of Arlington Cemetery. The machine seemed to be behaving beautifully. The first round was made in fifty seconds. Five times the machine circled the field, attaining a height which varied from fifteen to thirty feet.

On the sixth round Mr. Wright came to earth within a few hundred feet of the starting point, completing the flight in exactly five minutes. The landing was perfect, the machine swooping down in successive glides until within a few feet of the earth when Orville pulled the strings which stops his motor and the aeroplane glided smoothly over the grass on its skids until it came to a stop. The machine was returned to the

starting apparatus and again was placed in position and another flight was essayed. The start was as successful as the first. In the second flight Orville made much wider turns and rose to a greater height. When Wright watched every detail of his flight with care.

It was noticed that at times the motor skipped, but this, too, seemed to have no effect on the progress of the aeroplane. The starting rail runs downward into a little hollow in the field and when the aeroplane passed over this hollow it dipped noticeably and whenever it passed over a vacant space between two of the stables it was seen to rise as though on a billow of air, but these atmospheric conditions were easily overcome by clever manipulation of the levers. On his second flight Orville made nine rounds of the field in a few seconds less than eight minutes. In his last attempt he remained aloft for a few seconds more than nine minutes and encircled the field nine and one-half times. For one complete round he flew very close to the ground, evidently preparing to land. This he did within two hundred feet of the aeroplane shed. During this last flight he went higher than on the previous trials, reaching a height of forty feet. Just before making his landing the left wing scraped and grounded and raised a cloud of dust, but Mr. Wright continued to fly half way around the field before descending.

**SPECIAL DISTRICT
ELECTION JULY 13th**

HELD FOR PURPOSE OF DETERMINING MILLAGE TO ASSESS.

The Trustees Will Also Be Elected for Another Term at This Bi-annual Election.

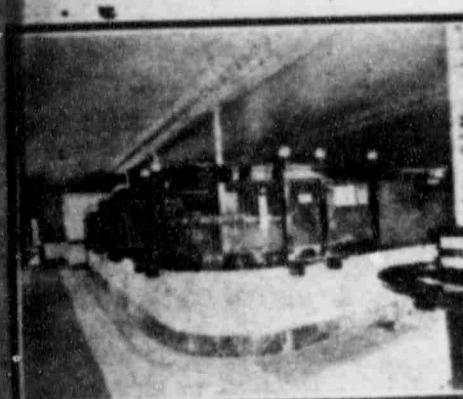

The election for the school districts for Alachua county will be held next Tuesday week, July 13th.

According to law these elections are held bi-ennially and will be held in each of the sub-districts of the county, the object being to elect new trustees and to make the rate of millage to be assessed against the property for the districts.

Since the adoption of the sub-school districts the schools of the county have increased very largely, many new houses being built, and in all it has been a great thing for the patrons of the schools. In some instances the trustees have gone to work and had a sufficient millage vote to increase the length of the school terms, and this method has been tried.

Superintendent Kelley has been busy all of the past week preparing the ballot boxes and will get them out to the respective districts during the coming week to have them at the polls at the proper time.

If you have pains in the back, weak back, or any other indication of a weakened or disordered condition of the kidneys or bladder, you should get DeWitt's Kidney and Bladder Pills right away when you experience the first sign of kidney or bladder complaints, but be sure that you get DeWitt's Kidney and Bladder Pills. We know what they will do for you, and if you will send your name to C. DeWitt & Co., Chicago, you will receive a free trial box of these kidney and bladder pills. SUMMER NORMAL IS DOING GREAT WORK

NEW STUDENTS COMING IN ON EVERY TRAIN.

First Week Closed With Larger Attendance Than Ever Before Reached For First Week.

The first week of the Normal closed Friday with a larger attendance than ever reached before for the first week. New students are coming in on every train. At 3:30 Friday afternoon Miss Lula Sims of the South Florida Normal Institute arrived. This morning Mrs. Ella M. Williamson will arrive from Bessemer, in South Florida, and Miss Hattie Hawthorn, fifth grade teacher in the South Florida Normal Institute, will also come in.

Maj. Floyd has conducted the school with very marked ability. He has worked over the daily schedule until all conflicts are removed. This was no easy task, for there are ten State studies, and of these the Latin is divided into four sections, necessitating four recitations a day. The geometry is divided into two sections, making two recitations a day.

There are thirteen first grade studies and ten second grade studies. Never before has as much work been done by faculty and students as is now being done in Gainesville.

The harmony and general friendship of the faculty is daily commended upon by the student body. Each teacher has been given work for which he is specially fitted.

NOTES.

Prof. Corr received yesterday afternoon an offer for four of his Normal students; two at \$45 a month each, one at \$70 and one at \$75.

One of the hardest working students in the Normal is Mr. Basil Bowden, the son of Editor Bowden of The Dade City Star.

Miss Aly May Corr writes her father from Chicago University that she is well pleased with the work of the university.

DIES FROM WOUND.

Wynne Expires From Hole in His Head Thursday Night.

T. B. Wynne, the young man who was knocked in the head at Micahony during the first of the week by Verner, died from the effects of the wound on Thursday night about 7 o'clock, after suffering from the wound for over forty-eight hours.

Young Wynne was known by a number of citizens of this city, and up to within a few years since was a resident of Levy county, having lived near Meredith and Albion, and was engaged there in the phosphate business.

The preliminary hearing of Verner will be held here before Judge Mason as soon as the wife of Verner can attend the trial.

It is stated that the negro woman, Sanderson, is improving, and that there are strong prospects of her recovery, although she was hit in the head three times with the axe, and fell to the floor.

CANTALOUE SEASON DRAWING TO A CLOSE

CROP CUT SHORT OWING TO
BLIGHT IN FIELDS.

Dry Weather Affected the Yield to
Large Extent, But Very Satisfactory Prices Received.

The cantaloupe crop of Gainesville and immediate section is now about a thing of the past, and had it not been so, the rains of the past week would wind it up in a couple of days.

While this has been the main shipping point for the cantaloupe business, the past season has not come up to the standard, a great many acres being a total ruin owing to the blight.

There was a much smaller acreage planted to cantaloupes the past season than for a number of years in this immediate section, owing principally to the fact that the farmers had lost heavily on preceding crops, but this year has been the smallest in the history of the business.

The Melon Growers' Association, which operates extensively, have received very satisfactory prices all during the season, but this has been occasioned by the demand they have established for their goods, which are invariably sold before leaving Gainesville.

Some of the outsiders have received as high as \$3 per crate, but as a general thing they have let go for charges, for their cans failed to arrive in the same condition as the refrigerated fruit of the association.

The coming week will wind up the straggling shipments for Gainesville, but the few that are going forward is nice stock and commanding better prices, the wind-up of the crop being of a better grade.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. BABY'S ITCHING WAS INTOLERABLE

Girl of Six Months had Fearful Attack of Eczema—Spread All Over Her Face and Eyes Began to Swell—Scratched Till Blood Came—Relieved in a Night and

CURED BY CUTICURA AFTER LONG SUFFERING

"When my little girl was six months old I noticed small red spots on her right cheek. I did not pay any attention to them but finally the spots grew so large that I sent for the doctor who said it was ringworm. He prescribed an ointment which I used for two weeks, but instead of helping the eruption, the ointment seemed to make it worse. Then I went to a second doctor who after examining the baby said it was eczema. He also gave me an ointment which did not help either. The disease in the meantime spread all over the face and the eyes began to swell. I became very anxious. The itching grew intolerable. I had to tie the baby's hands to the cradle to prevent her scratching. The cheeks were covered with blood and it was a terrible sight to see. I consulted doctors from September to December, but they were unable to cure the baby. I paid out from twenty to thirty dollars without relief.

"One of my friends told me of the Cuticura Remedies and I sent at once for a set which I began to use that evening. The next morning the baby's face was all white instead of red and you can imagine how surprised I was. I cannot find words enough to praise Cuticura and I do not know what would have become of my baby only for it. I used the Cuticura Remedies until the eczema entirely disappeared. The child is now three years old and quite well. I used three cakes of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Rosolvent and I never use any other soap. I always recommend them whenever there is a chance for doing so. I will send you one of her pictures which she had taken just after she was healed. Mrs. P. E. Gumbin, Sheldon, Ia., July 13, 1908."

PALATKA BOYS RETURN.

Rain Prevented a Very Pretty Game
Here Friday.

Owing to the down pour of rain which fell in this city all of Friday, the Palatka boys were compelled to return to their homes without the game of baseball anticipated.

The team, accompanied by Louis Kalbfeld and his good wife, arrived from Palatka Friday morning with everyone ready to play that much-talked-of game, but nature had decreed otherwise, and the steady down-pour of rain put this plan out of existence.

One of the best teams that Palatka has ever gotten together is now working with them, and they state they can and will play ball the remainder of the season, and expect to capture as many games as any of the other teams.

Mrs. Kalbfeld, who is one of the warmest supporters of the Palatka boys, was here to "root" for them, and was one of the most disappointed of the group. They all left for their homes over the Seaboard at 3:50, but other arrangements will be made for a later date between these two clubs.

NOTICE OF INCORPORATION.

Notice is hereby given that we, the undersigned, intend to apply to His Excellency, Albert W. Gilchrist, Governor of the State of Florida, on the 3rd day of August, A. D. 1909, for letters patent to be issued to Wilson Company, upon the proposed charter of said company, a copy of which is as follows:

C. A. COLCLOUGH,
J. D. STRINGFELLOW,
W. R. THOMAS,
J. D. GARDNER,
BESSIE L. KING.

Articles of Incorporation of Wilson Company.

We, the undersigned, hereby associate ourselves together for the purpose of forming and becoming a body corporate under the laws of the State of Florida, and do hereby make, adopt, declare and subscribe the following as the articles of our incorporation:

Article I.—The name of this corporation shall be "Wilson Company," and its place of business shall be Gainesville, Alachua county, Florida, but such branch offices and places of business may be established elsewhere as the Directors may from time to time determine.

Article II.—The general nature of the business to be conducted by this company shall be to buy and sell any and all kinds of merchandise, at wholesale or retail; to buy, sell, mortgage or lease realty and personal property; to do a general mercantile and contracting business, and to exercise such powers as shall be necessary for, and incident to, the conducting of said business or businesses.

Article III.—The capital stock of the company shall be \$50,000.00, divided into five hundred shares of \$100.00 each, \$30,000.00 to be paid up in full in cash before commencing business, and the remaining two hundred shares to remain in the treasury of the company and sold by said company at not less than \$100.00 per share for cash, as the by-laws may direct.

Article IV.—The corporation shall continue and have full power to exercise its corporate franchise for ninety-nine (99) years after the commencement of its corporate existence.

Article V.—The business of this corporation shall be conducted by a President, a Vice-President, a Secretary and Treasurer, a Manager, and four Directors.

The directors may be increased by the by-laws to any number not exceeding six. The directors shall be elected by the stockholders at the annual stockholders' meeting held in Gainesville, Florida, at the principal place of business of the corporation on the first Tuesday in January of each year, beginning in the year 1910. The other officers shall be elected by the directors immediately after the stockholders' meeting. The first annual meeting shall be held on the first Tuesday in January, 1910 and until the first election of director and officers, the following shall be the officers of the corporation: President, C. A. Colclough; Vice-President, J. D. Stringfellow; Secretary and Treasurer, W. R. Thomas; Manager, J. D. Gardner; Directors, C. A. Colclough, J. D. Stringfellow, W. R. Thomas and J. D. Gardner.

Article VI.—The highest amount of indebtedness or liability to which this company can at any time subject itself shall be \$15,000.00.

Article VII.—The names and residences of the incorporators, and the amount of capital stock subscribed by each, are as follows:

C. A. COLCLOUGH, Gainesville, Florida, 160 shares.

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

Some men so easily lose themselves because they have so little to lose.

Missouri, the State which wants to know, seems able to secure attorneys general who never fail to find out.

The American Eagle is triumphant in the Far East. This time it is not the eagle militant, but the eagle golden.

Enactment of a Canadian law restricting coastwise trading to Canada vessels may not please American shippers, but it is the sincerest form of flattery of American laws.

A New York jeweler paid \$5,100 for forty-four pounds of brass filings, represented as gold. The long dormant old-brick business should show signs of revival under this stimulus.

If the Everglades have had the same rain fall that has been experienced in this section for the past five days, the fallacy of feasibility of Broward's drainage operations will be practically settled.

Most lines of business continue to port steady improvement, despite the fact that the tariff question is still unsettled. Business interests have evidently been more frightened than hurt by the tariff discussion.

It is the general impression of men who ought to know that as soon as the tariff question is out of the way, and Congress adjourns, the greatest wave of prosperity ever experienced will sweep over the United States.

A town in Kansas of a total population of 150, mostly farmers, has the distinction of having 50 automobile owners, the machines being recently purchased. Incidentally this does not indicate great uncertainty about crops in Kansas.

A returning African traveler says the ex-President will be many pounds lighter when he emerges from the jungle. Even Nature seems determined to call attention to the difference between our recent chief executive and President Taft!

Gainesville is better provided with banking facilities than any other town of its size in the State. All the bank officials are obliging gentlemen, and people find it a real pleasure to do business with them. To keep a deposit with a Gainesville bank is to have the same guaranteed.

The Apalachicola Times refers to talk about Ion L. Farris running for Congress as follows: "Mr. Speaker Farris is accused of a desire to possess Congressman Frank Clark's place at Washington. A very laudable ambition indeed, but Mr. Farris is reminded that if wishes were horses' legs would ride, but as they ain't he classes must walk."

The editor has heard several of the teachers attending the State Normal School during the past week that Gainesville is naturally a pretty town, and it is a shame that she has not paved streets. To all of us we agree. There has been enough wasted in rock paving in Gainesville during the past quarter century to have paved every town with vitrified brick.

STANDARD OIL SUIT.

A dispatch to The Pensacola Journal from Jackson, Miss., says application has been made in the chancery court of Clay county by District Attorney T. L. Lamb for a perpetual injunction restraining the Standard Oil Company from operating in Mississippi, and seeking to collect penalties for alleged violation of the anti-trust law of the commonwealth aggregating \$11,000,000.

The injunction bill in detail recites the history of the Standard Oil Company and the methods by which it is alleged to have stifled competition in that State.

Under the Mississippi code as amended by the Legislature in 1906 the State is entitled to recover statutory penalty of \$5,000 per day for each specific violation of the anti-trust laws, and the penalties sought to be recovered in this instance cover a period of three years. The hearing will take place at West Point during the November term of the chancery court.

The declaration covers practically the same grounds as set forth in similar proceedings instituted in other States in recent years.

District Attorney Lamb files the proceedings in the name of the Commonwealth. The case promises to be the most notable ever brought under the anti-trust laws of Mississippi.

The carrier boys of The Sun proved their faithfulness yesterday morning by delivering the paper in one of the hardest rains that ever fell in this section. These little fellows are made of the kind of stuff that makes real men when they have grown up. Their names are Pratt Johnson, Henry Stalls and Douglass McDowell, and the manager was surprised that most of their papers had been delivered when he reached the office at 8 a.m. They realized that Old Pluvious was not going to let up in his flood of water for several hours, and took up their regular morning's work of delivering the paper in a way that should not soon be forgotten by our subscribers, as it certainly will not be by the manager.

Succeeding the Boxer outrages some years ago the influence of the United States was exerted to save China from being carved up and divided among several European powers. Possibly the astute Chinese thought of this, and reasoned that with large amounts of American money invested there the United States would be more than ever disposed to help maintain the integrity of the Chinese Empire, hence the inducements being offered American capitalists to invest in that country.

In these days of daily official weather forecasts not so much attention as formerly is paid to the homely weather lore by which our fathers quaintly foretold the weather. Yet it is a curious fact corroborated by painstaking research that somewhere about one hundred of these folksayings like "Hills clear rain, rain near," rain before seven leave off before eleven are under ordinary conditions reliable. Of course these sayings originated as the result of close and extensive observation of nature and not in scientific investigation.

Men and women by the thousand fritter life away for want of concentration. They are active enough yet accomplish nothing because of this fatal defect. Every person should find out the strong inclination of his mind towards some special pursuit and then do his utmost to give practical effect to it. "This one thing I do" is a motto to that everyone may act upon with advantage.

Our "Want" ads bring results.

The establishment of a city park on one of the vacant lots in the southwest part of town would be the proper thing for the City Council to do before property in that section advances any higher in price. Too many parks cannot be established in a city, and in this respect Gainesville is behind every other town in Florida.

Recently a man found nearly \$5,000 in bills of different denominations hidden between the leaves of an old family Bible that had not been opened for thirty-five years. It is natural to expect that wherever this news travels there will be a thorough search, if not reading, of family Bibles.

As soon as the "rainy spell" lets up it would be a good idea for the street committee to have the brick crossings around the square cleared of the mud which has covered them for several weeks to such an extent that it was not noticeable that any such crossings had ever been laid.

Want advertising is a force which you can harness, and with which you can drive your plans and purposes to any desired destination.

SHOOTING WHALES.

Modern Whalers Use a Cannon and an Explosive Harpoon.

Whaling with modern methods in Alaskan waters is an exciting game, especially for those who are new to the business. The modern whaling steamer is a little vessel almost round on the bottom, which enables it to be turned and maneuvered with the greatest ease. Mounted at the bow is a small cannon that shoots a harpoon weighing more than 100 pounds and having an explosive head, called the bomb.

If the shot is good and the harpoon is planted squarely behind the fin, the bomb crashes into the lungs, killing instantly; if not, the struggle may last for several hours.

After a whale has been killed the carcass is brought alongside the boat and inflated so that it will float. A long coil of rubber hose, one end of which is attached to a pump and the other to a hollow spear pointed tube of steel, with perforations along its entire length, is used for this purpose.

The spear is thrust well down into the whale's side, the air pump started and the body slowly filled with air. When inflated enough to keep it afloat the tube is withdrawn, the incision plugged with oakum and the carcass cast off. A buoy with a flag is attached to the body, and it is then set adrift to be picked up at the end of the day's hunting.

The whaling station is a group of buildings situated in a bay or cove near enough to the feeding grounds to allow the steamer to come in each night with the day's catch. The whales are anchored at a buoy in front of a long, inclined platform, upon which they are drawn, tail first, by means of a steam winch.

The saying that every part of the pig but the squeal is now of market value is also a fact with the whale. Not a particle of the animal is wasted.

After the skeleton is stripped of flesh it is disarticulated and the bones chopped in pieces.

The blubber is tried out for oil, and the meat and bones are boiled for the same purpose. Later the flesh is artificially dried and sifted, making a fine guano, and the bones are ground up for fertilizer. Even the blood is boiled and dried with the flesh, and the water in which the blubber has been tried out makes excellent glue. The fins and tails, after being sliced into thin strips, are salted and barreled and shipped to Japan as an article of food. —World's Work.

**NOISY AFRICANS.**

Laughter Seldom Heard in the Uproar of the Natives.

Among the African natives there can be nothing done without noise, according to a Pittsburg man who has traveled extensively in Africa.

"It is simply appalling, the rush, the roar, the chatter and the bawling, like Bedlam broke loose," the traveler said. "The principal object of conversation is said to be money, and the babbling, bawling and uproar in all sorts of tones from shrill and screaming to gruff and growling, accompanied by all sorts of gesticulations, with tongue, head and feet, are beyond description."

"It is rather odd, but laughter is almost never heard in this uproar, and as for whistling it is a lost art. If there are any quarrels they are not to be heard in public, although when a company of natives gets to carry on an animated conversation it appears to the observer as if the next act would be a melee."

"In addition to these natural sounds there are others of an artificial character that are equally familiar to the traveler. Such is the noise of the drums called tomtooms, which are beaten on every occasion, and a kind of pipe about eighteen inches long, with holes like those of a flute and breathed through in a way that produces a variety of notes of a wild, discordant character. A frightful noise is made by the kaffa men blowing on a big shell." —Washington Post.

Starved to Death

Is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, pasty-complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge—you will be surprised at the results and how quickly it picks up. Sold by W. M. Johnson.

The Deserter.

"Do you desire to have it understood," asked the judge, addressing the lady who wanted the divorce, "that your husband deserted you?"

"Yes, sir."

"Please tell the court as concisely as you can how he deserted you."

"Two months after we had completed our wedding trip he scolded me because he thought I was extravagant in the matter of getting clothes, and I went home to my people."

"Yes. Proceed."

"Well, I waited and waited and waited for him to come and beg me to return to him, and he never did." —Chicago Record-Herald.

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. J. W. McCollum & Co.

Not Guilty.

"Young man," said the serious person, "don't you realize that the love of money is the root of all evil?"

"Well," answered the spendthrift, "you don't see me hanging on to money as if I loved it, do you?"

Same Thing.

"Don't court trouble."

"No; court a girl and the rest will take care of itself." —Boston Herald.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire health fails, and how every organ seems to fail to do its duty.

If you are sick or feel badly, begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle sent you by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI!

J 35
It Will Help You

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Palms Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects thereto will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micropoly, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wanee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

How and Where to Get Votes

The following merchants will give one vote for every cent paid into their establishments for goods which they handle:

Gainesville Furniture Company, Furniture.
Phifer & Morris Co., Clothing and Furnishings.
Gainesville Hardware Co., Plumbing and Hardware.
Mrs. F. T. McCormick, Millinery.
W. M. Johnson, Drugs and Medicines.
L. C. Smith, Shoes and Jewelry.
Mrs. R. Wilson, Dry Goods and Notions.
Saunders & Earle, Groceries and Feed Stuffs.
City Bakery, Bread and Pastry.
P. Y. Smith, Fresh Meats.
Crawford & Davis, Livery and Sale Stables.
The Sun, Printing and Publishing.
The Brown House, Meals and Lodging.
N. Francisco, Banana House, Fruits, Etc.
Eddins Mfg. Co., Lumber and Building Material.
Standard Fertilizer Co., Fertilizers.

Where Votes May Be Cast

Ballot boxes will be found in the establishments of the merchants giving votes and at The Sun office. Votes sent by mail must be directed to the Voting Contest Department of The Sun, Gainesville, Florida.

Rules and Regulations

1. The contest is open to anyone living in Alachua county who is known by the conductors of the contest or vouched for by some reputable person, to them well known.

2. No employee, attaché or relative of the proprietors of the above-named firms are eligible to participate in this contest, and will participate in no manner.

3. In the event of a misunderstanding between candidates or others interested in this contest, such controversy may be referred to the conductors of contest, who alone are the persons qualified to render decisions.

4. In the event a candidate decides to withdraw from the race, such candidate will not be allowed to transfer votes to the credit of another candidate in the contest.

Damage to Peaches.

Geo. L. Taylor, superintendent of the Gainesville Peach Orchard, was a visitor here yesterday. He states that the heavy rain on the peaches in the orchard will prove a detriment to them, for it has caused a great many to fall, which will make them useless for shipping purposes. The crop had about been exhausted, however, and the next peaches we will have here will be the Georgia peach, but the scarcity and demand for this fruit this season will make them rather expensive.

Adjudged Insane.

Jno. D. Moody, a middle aged white man of Alachua, was brought here yesterday and at an examination held before Judge Mason the unfortunate man was adjudged insane. The authorities at Chattahoochee have been notified and an attendant is expected to arrive within the next few days.

REPORT WAS AN ERROR.

Palatka Outplayed the Ocala Baseball Team on Home Diamond.

The information received here concerning the Ocala-Palatka game on Thursday in the Brick City was an error in so far as the score was concerned.

From the manager and many of the players, it was learned that Palatka not only beat the Ocala team, but beat them badly, and with the permission of the manager of the Ocala team the umpire of the Brick City called the game a tie, 8 to 8.

The Palatka contingent also stated his "umps" was very much against them.
